

City of Amarillo 2012 Training Series #5

Educational Opportunity ***Powerfoam EPS Insulation***

DESIGNED FOR: Contractors, Design Professionals, Home Builders, Inspectors, and Suppliers

Program: EPS Foam Insulation

Length of Seminar: 1/2 Day – **1:00 PM to 5:00 PM**

Experience Level: Intermediate-advanced

Description:

This seminar will assist participants in understanding expanded polystyrene (EPS) insulation and the application of foam products. Highlighting concepts of conditioned attics and the varying code requirements. The instructor will provide specifics on performance based applications vs. prescriptive requirements. Knowledge review questions will provide ample opportunity for participants to discuss and consider the changes.

Objectives:

Upon completion, participants will be better able to understand:

- EPS concerning EIFS, commercial roofing and sidewall application
- Requirements and 3rd party testing
- Basic knowledge and who to contact concerning questions on jobsite
- R-Values and WRB “water-resistant barrier”
- IECC regulations concerning walls and ceilings
- There will be numerous questions due to the complex code
