Downtown Amarillo, Inc. and the City of Amarillo have been exploring design options for improvements to Polk Street (3rd to 11th downtown) and to 6th Avenue (Rails to Trails terminus at 7th and Crocket, to 6th, and into downtown to Grant). An opportunity exists for federal TIGER (Transportation Investment Generating Economic Recovery) funding to help fund the improvements, and we would like your input. Information on this project is available under Quick Links at www.downtownamarillo.com. Input can also be provided via email (below).
