Subject: Policy Statement on Drywall Replacement and Repair

Date: October 4th 2017

Policy Statement: Drywall replacement /repair

12/22/16

- As a general rule, a permit is not required for replacement of drywall unless the cumulative total replaced exceeds 32 sq ft. Therefore, drywall replacement of 32 sq ft or less shall be considered an ordinary repair, thus exempt from permit.

Exception:

1. In an unusual or unique situation, the permit requirement may be modified at the digression of the Building Official or his designee.
2. Patching activity, regardless of cumulative total would also be considered an ordinary repair and exempt from permit.

Thank you

Randy W Schuster
