This plat is for the purpose of creating one hundred and fourteen (114) residential and commercial from a previously unplatted tract of land. Because of the number of lots, this plat is not considered a minor plat, and therefore requires action from the Planning and Zoning Commission. This plat is located outside the city limits in the City of Amarillo's ETJ. The plat has been reviewed by the customary City departments and local utility companies and complies with all other Subdivision and Development Ordinance standards except for 4-6-53(b) which states that "alleys shall be provided in all Plats, except that the Planning and Zoning Commission may waive this requirement where other definite and assured provision is made for service access". The applicant is seeking a variance from the alley requirements, stating that the lots are outside of the City Limits and services are provided on-site, such as well and septic systems.

Planning Department staff **recommends approval** of this plat. Staff also **recommends approval** of the variance request.

This plat is for the purpose of creating three (3) residential lots from one previously platted lot. Because a residential replat requires a public hearing and notifications to be sent to all property owners within the original subdivision and within 200' of the replat (Texas Local Government Code 212.015(c)), this application requires action from the Planning and Zoning Commission. This replat is located within the city limits of the City of Amarillo. It has been reviewed by the customary City departments and local utility companies and complies with the Subdivision and Development Ordinance.

Four (4) notices were sent out and no comments were received for or against this item.
