☐ ¼ inch (one square) equals 5 feet ☐ ¼ inch (one square) equals 10 feet Drawing must be to scale. Indicate distances from neighbor's wells and the "north" direction. Draw all outbuildings, swimming pools, retaining walls and any feature indicated with a "yes" above. Draw all soil borings locations and indicate slope by percentage or with contour lines (from structure to farthest distance of drainfield) I certify that the findings of this report are based on my field observations at RS PE DR COSE 🗌 Choose one: The site location and are accurate to the best of my ability. I also understand if the soil classification is disputed, I can be requested to submit a soil analysis by a laboratory to support the findings. Signature of Site Evaluator/License Number Date

Accurately draw the entire septic system and surrounding area using one of the following scales:
