Second and final reading of an ordinance rezoning a 102.39 acre tract of unplatted land in Section 61 and 62, Block 2, AB&M Survey, Potter County, Texas, plus one-half of all bounding streets, alleys, and public ways to change from Agricultural District to Planned Development District 325A for an industrial park and associated uses.
(Vicinity: NE 24th Ave. and Folsom Rd)

Agenda Item Summary

Area Characteristics

Adjacent to zoning consists of General Retail District, Residential District 3, and Agricultural District to the north, Planned Development District 325 to the west, Agricultural District to the east, and Light Industrial District 1 to the south.

Adjacent land uses consist of undeveloped land in all directions.

Proposal

The applicant is requesting a change in zoning in order to expand the existing Planned Development District to the west to encompass this particular area to allow for commercial and industrial land uses.

Analysis

Analysis of zoning change request begins with referring to the Comprehensive Plan's Future Land Use and Character Map, this map identifies recommended future land uses. Additionally, staff considers what impact on area existing zoning and development patterns.

As presented, development standards of the Planned Development are proposed as follows:

Land use/s:

Allowed land uses:

Any use allowed within a Heavy Industrial District

Prohibited land uses:

No slaughter house, storage of livestock and/or live animals, no use which negatively impacts the business park or neighboring areas via offensive odor, fumes, dust, smoke, noise, pollution or which constitutes a nuisance or hazard.

In no event shall any land be used for adult entertainment of any kind.

Miscellaneous:

All other development standards shall comply with Heavy industrial District.

When comparing the above development standards, more in particular the allowed and prohibited land uses, it was the Planning Commission's opinion that the rezoning request is consistent with the adopted 2010 Comprehensive Future Land Use and Character Map, which recommends "Industrial" land uses for the area.

Regarding the existing land use and zoning pattern, although there is non-residential zoning to the north, it is the Planning Commissioner's opinion that with existing industrial zoning to the south and west in addition to other non-residential zoning (General Retail), the expansion of the existing planned development would not be inconsistent with area zoning and development patterns.

Considering all the above, the Planning and Zoning Commission believes the applicant's request provides sufficient safeguards, by way of development standards, that attempt to mitigate any negative impact on surrounding property. Additionally, Planning Commissioners believe that should this request be approved, the expansion of the existing planned development represents a logical continuation of non-residential zoning in the area.

Requested Action/Recommendation

Staff notified all property owners within 200 feet of the rezoning request as required and at the time of this writing, the Planning Department has received a comment regarding the expansion of Planned Development 325 eastward. The area property owner who owns the residentially zoned lots to the north, expressed concerns with possible nuisance odors and noise with any non-residential development in the area. During the Planning and Zoning Commission meeting, it was relayed to the property owner that there are provisions that take into account nuisance activates as well the prohibition of certain land uses.

The land owner was appreciative of these standards being included in the planned development and stated that those concerns were addressed by doing so. However, the property owner did still have some concern with the potential lowering of his property values upon expansion and development of the existing business/industrial park.

Taking all the above into account, the Planning and Zoning Commission was of the opinion that the applicant's request is appropriate and recommends approval as presented.

Second and final reading of an ordinance rezoning of a 13.98 acre tract of unplatted land in Section 191, Block 2, A.B.&M. Survey, Potter County, Texas, plus one-half of all bounding streets, alleys, and public ways to change from Agricultural District to Residential District 3. (Vicinity: Temecula Creek Blvd. and Riesling Way)

Agenda Item Summary

Adjacent land use and zoning

Adjacent zoning consists of Residential District 3 to the east and Agricultural District to the north, south, east, and west.

Adjacent land use consists of single family detached homes to the east and undeveloped land to the north, south, and west.

The applicant's property is located in Northwest Amarillo.

Analysis

The applicant is requesting a change in zoning in order to continue with the next phase of The Vineyards Subdivision.

Analysis of zoning change request begins with referring to the Comprehensive Plan's Future Land Use and Character Map which identifies recommended future land uses. Also considered is how a zoning conforms to the Neighborhood Unit Concept (NUC) of development, and its impact on existing zoning and development patterns.

When comparing the Future Land Use Map and this rezoning request, the applicant's request differs from what is recommended for this particular area as it is designated for "rural" land uses. Rural land use designation allows for residential uses yet are for ones that have lower density developments with greater open space. Although the portion of the site to be developed will not represent the large lot sizes mentioned in the future land use description, it should be recognized that there has been a change in conditions within the area that did not exist at the time of the Future Land Use Map adoption and that the "rural" designation may have been done in order to mirror the actual zoning of the land at the time the Comprehensive Plan was adopted (Agricultural District).

As mentioned above, the Neighborhood Unit Concept is also a key piece of consideration. This concept of development ensures that commercial areas will have less of an impact to residential areas by way of the recommended transitioning mentioned previously. This rezoning request does follow the Neighborhood Unit Concept in that should it be approved, will allow for higher density residential development to occur along or near a section line in a manner that will help buffer the more traditional residential areas internal to the section from the highly travelled arterial right-of-way of Broadway Dr.

Other Planning strategies that should be considered when making decisions about land use and/or development include an emphasis on infill development in areas where utility services are present. With this area representing the sixth phase of the subdivision's development, this is strategy is being supported by creating the opportunity for further development.

It is worth noting that the area proposed for rezoning is associated with a plat for the same area. As designed, the proposed plat meets or exceeds the proposed zoning designations standards and is designed in accordance with the approved Preliminary Plan of the Vineyards Subdivision.

Requested Action/Recommendation

Notices have been sent to all property owners within 200 feet of the property regarding this rezoning request. At the time of this writing, the Planning Department has not received any comments regarding this request.

Considering the above, the Planning and Zoning Commission is of the opinion that the applicant's request is appropriate and recommended approval as presented.

Second and final reading of an ordinance vacating a portion of a twenty-foot Public Utility Easement in Block 311 and a twenty-foot Public Utility Easement in Block 312, Mirror Addition, in Section 155, Block 2, AB&M Survey, Potter County, Texas (VICINITY: SE 3rd Ave. and Ross St.)

Agenda Item Summary

Proposal

The applicant is proposing to vacate a Public Utility Easement and a portion of another. These easements were dedicated in 1954 and were dedicated as a result of two alleys (in the same location) being vacated at that time.

Analysis

The easements now being considered are located within two blocks of the Mirror Addition as mentioned above. These blocks were initially subdivided into lots for residential development, yet since approval in 1889, commercial zoning and development has transpired. This is evidenced by the non-residential land uses within the two blocks mentioned-above and adjacent property to the north, west, and south of these blocks.

With development not occurring as initially planned and subsequent non-residential development obtaining utility service via the adjacent rights-of-ways (Ross and 3rd), these previous alleyways were never improved or equipped with utility infrastructure (water, sewer, electrical, etc).

The applicant now owns the undeveloped portions of the two blocks and has submitted a plat that will combine the residentially platted lots into large commercial tracts. This is in preparation for the upcoming development of the site.

The vacation request has been reviewed by the customary City Departments and local utility companies and none were opposed to abandonment as there are no utilities or intent to locate within these easements.

As with any vacation request, an applicant is required to either pay fair market value to acquire the area, dedicate an area of equal or greater value, pay only the higher cost of the fair market value or the relocation cost, or complete a combination of these requirements.

In this particular case, the applicant is dedicating approximately 7,565 square feet of right-of-way (via plat) yet this square footage is below what is being vacated by 2,154 square feet. So dedication of an area of equal or greater value has not been accomplished. As such, the applicant was required to pay the fair market value of the remaining square footage which amounted to \$1,076.78.

Requested Action/Recommendation

Considering all of the above, the Planning and Zoning Commission believed the applicant's request was appropriate and recommends **approval** as presented.

If the Recipient's Project Plan includes HMIS Consolidation or HMIS functionality changes, the Recipient must submit its HMIS Governance Charter and HMIS Policies and Procedures to a HUD-funded TA provider for review by the deadline specified in Appendix 3. Upon receiving the TA provider's comments and recommendations, the Recipient must review each comment and recommendation identified by the TA provider and must correct all instances of non-compliance with HUD's HMIS requirements. Immediate family ties include the following relations of the person, whether by blood, marriage or adoption: spouse, parent (including a stepparent), child (including a stepchild), sibling (including a stepbrother or stepsister), grandparent, grandchild, and in-laws.

- b. Exceptions. - c. Threshold Requirements for Exceptions. HUD will consider an exception only after the Recipient has provided the following documents:

 - i. Whether the exception would provide a significant cost benefit or an essential degree of expertise to the program that would otherwise not be available;
 - ii. Whether an opportunity was provided for open competitive bidding or negotiation;
 - iii. Whether the person affected is a member of a group or class of low- or moderate-income persons intended to be the beneficiaries of the assisted activity, and the exception will permit such person to receive generally the same interests or benefits as are being made available or provided to the group or class;
 - iv. Whether the affected person has withdrawn from his or her functions or responsibilities, or the decision-making process with respect to the specific assisted activity in question;
 - v. Whether the interest or benefit was present before the affected person was in a position as described in paragraph (a);
 - vi. Whether undue hardship will result either to the Recipient or the person affected when weighed against the public interest served by avoiding the prohibited conflict; and
 - vii. Any other relevant considerations.

- J. Article IV.

- A. Noncompliance.** If HUD determines preliminarily that the Recipient or one of its subrecipients has not complied with the terms and conditions of the Grant Agreement, HUD will give the Recipient notice of this determination and an opportunity to demonstrate, within the time prescribed by HUD, and on the basis of substantial facts and data, that the Recipient has complied with the requirements. Upon preliminary determination HUD may change the method of payment to reimbursement and require the Recipient to submit documentation before payment and obtain HUD's prior approval each time the Recipient draws down funds. To obtain prior approval, the Recipient may be required to manually submit its payment requests and supporting documentation to HUD in order to show that the funds to be drawn down will be expended on eligible activities in accordance with the Grant Agreement. If the Recipient fails to demonstrate to HUD's satisfaction within the prescribed time that the activities were carried out in compliance with the Grant Agreement, HUD may impose additional conditions, as described in 2 CFR §200.207, or take one or more of the actions described in 2 CFR 200.338, or require the Recipient to receive HUD-funded TA, or may terminate the grant.
- B. Closeout.** The grant will be closed out in accordance with 2 CFR part 200. No later than 90 days after the Period of Performance End Date, unless HUD grants an extension, the Recipient must provide to HUD the following, in the format(s) approved by HUD:

- C. **Continuing requirements.** Closeout of the Grant shall not affect the Recipient's record retention responsibilities under 2 CFR 200.333 or any other continuing responsibilities of the Recipient under this Grant Agreement. When original or replacement equipment acquired under this Grant Agreement is no longer needed for the activities described in the application or activities supported by HUD, the Recipient shall request disposition instructions from HUD.

Agenda Caption

Public hearing and reading of an ordinance rezoning 19.15 acres of unplatted land in Section 183, Block 2, AB&M Survey, Randall County, Texas, plus one-half of all bounding streets, alleys, and public ways to change from Agricultural District and Multiple-Family District 1 to Multiple-Family District 1. (Vicinity: Farmers Ave. and Georgia St.)

Agenda Item Summary

ADJACENT LAND USE AND ZONING

The adjacent zoning consists of Agricultural District to the north and south, Residential District 3 to the east, is bounded by current City Limits line to the west.

Adjacent land uses consist of vacant land to the north and south, single-family detached homes to the east, and vacant land to the west.

PROPOSAL

The applicant is requesting Multiple-Family District 1 in order to develop the land with multi-family land uses (apartments).

As alluded to in the description of this request, a portion (17.69 acres) of this request is currently zoned Multi-Family District 1 and was recently approved by City Council in August of this year. Shortly after approval, development plans changed that made additional land to the north necessary. This additional land amounts to 1.46 acres.

The developer purchased the additional acreage and then proceeded to submit a request for rezoning of the 1.46 acres currently zoned Agricultural District. It was soon discovered that the submitted description of the tract to be rezoned included the previously approved Multi-Family acreage. Although staff considered requiring the applicant to submit a separate metes and bounds description for only the additional land needed to the north (1.46 acres), in an effort to avoid unnecessary delays and expense to the applicant in preparing this separate metes and bounds description, staff agreed to include the entire land owned by the applicant which reflects all land purchased for the project (17.69 acres and 1.46 acres).

Therefore, if approved, a total of 19.15 acres would be zoned Multiple-Family District 1. Should approval not occur, the previously approved Multi-Family tract would remain with only the 1.46 acres of remaining as now zoned (Agricultural District).

In short, this request is in actuality only to rezone the additional 1.46 acres of land zoned Agricultural District needed for the development.

ANALYSIS

Considerations that were taken into account with the August's approval of the Multi-Family tract apply with this request as well. The Planning and Zoning Commission then and now analyzed conformance with the Comprehensive Plan's Future Land Use and Character Map, impact on existing zoning and development patterns, as well as conformity to the Neighborhood Unit Concept (NUC) of development.

Considering the above, it was the opinion that adding a mere 1.46 acres of Multiple-Family zoning to the previously approved multi-family tract is appropriate.

It is worth noting that notices have been sent to all property owners within 200 feet regarding this request. During the November 25th Planning and Zoning Commission meeting, a property owner that lives within the area notified inquired as to timing of adjacent infrastructure improvements needed as a result of the apartment development. It was explained that upon review of formal development plans for the tract and in the area for that matter, requirements for improvements such as drainage, street widening, warranting of a traffic signal, and others would be determined and if necessary, improved and/or installed.

Requested Action/Recommendation

Considering the above, the Planning and Zoning Commission recommends approval as presented.

CITY OF AMARILLO INVESTMENT POLICY AND STRATEGY
~~October 30, 2018~~December 10, 2019

FORMAL ADOPTION

This Investment Policy is authorized by the City Council of the City of Amarillo in accordance with Chapter 2256, Texas Government Code (the Public Funds Investment Act), as amended.

SCOPE

This Policy applies to all of the investment activities of the City, excluding the Employee Retirement Trusts, the OPEB Trust, the deferred compensation plan or investments donated to the City for a particular purpose or donated according to terms specified by the donor. This Policy establishes guidelines for those who can invest City funds, for how City funds will be invested, and for when and how a periodic review of investments will be made. The Investment Policy is divided into two sections: General Investment Policy and Investment Strategy.

INVESTMENT POLICY

The following are general requirements of the City Investment Policy. The general requirements address issues and requirements common to all funds separately invested by the City. Following the general requirements are specific requirements that relate to either specific fund types or funds managed by the City.

INVESTMENT OBJECTIVES

The City investment objectives are as follows:

- 1) To preserve capital is our most important investment objective.
- 2) To provide liquidity.
- 3) To optimize earnings within the constraints of Numbers 1 and 2 above.

TO PRESERVE CAPITAL

- 1) To preserve capital, the City will only invest in the following:
 - a) Time Deposits, Certificates of Deposit, and other interest bearing accounts at an authorized depository of the City. Investments are limited by the amount of the combination of federal depository insurance, pledged collateral and any surety bond or letter of credit of the depository.

Deposits issued:

- a. by a depository institution that has its main office or a branch office in this state that are:
 - I. Guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or
 - II. Secured in compliance with COLLATERAL; or
 - III. Secured in any other manner and amount provided by law for deposits of the investing entity.

name and deposited at the time the investment is made with the City or with a third party selected and approved by the City

- 2) To preserve capital, the City of Amarillo will not employ any investment strategy that is inherently risky.
 - a) The City will not borrow funds using investment securities as collateral and reinvest the proceeds in other investment securities. Approved no-load money market mutual funds in 1(g) above are allowed to use Reverse Repurchase Agreements.
 - b) The City will not take a position in a security for speculation or only for anticipated capital appreciation.
 - c) While a designated Investment Officer will be empowered to buy and sell securities on behalf of the City, the City will use a buy and hold strategy for most investments.
 - d) The City will diversify investments.
- 3) To preserve capital, the City will not invest in any securities that are inherently risky:
 - a) Obligations whose payment represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pays no principal.
 - b) Obligations whose payment represents the principal stream of cash flow from underlying mortgage-backed security collateral and bears no interest.
 - c) Obligations that have a stated final maturity date of greater than five years.
 - d) Obligations the interest rate of which is determined by an index that adjusts opposite to the changes in a market index.
 - e) Any obligation related to foreign currency or foreign market interest rates or indices.
 - f) Any other obligations similar to items 3(a) through 3(e) above where small changes in market interest rates can produce potentially large changes in the value of a security or substantially extend the life of the security.

TO PROVIDE LIQUIDITY

- 1) The Investment Portfolio will remain sufficiently liquid to meet the cash flow requirements that might be reasonably anticipated. Liquidity shall be achieved by matching investment maturities with forecasted cash flow requirements; investing in securities with active secondary markets; and maintaining appropriate Portfolio diversification including funds invested with overnight liquidity. Since projected cash flows are estimates, it is the stated goal to invest in a manner that provides excess funds for reinvestment and additional liquidity each month.
- 2) In conjunction with (1) above, the City will ladder investment maturities. That is, the Portfolio will be structured so that investments mature all along the yield curve and generally near term obligations are provided for before more long-term obligations. However, it will not be necessary to completely provide all maturities for a month before investing further out on the yield curve. By not fully investing every month, the City will be better able to utilize all investment options (especially more short-term securities) available in the Investment Policy. With the laddered Portfolio structure, there would be a steady stream of funds to the Portfolio and high quality short-term securities available if securities needed to be sold before maturity. In conjunction with the

above ladder approach, maturities beyond ninety (90) days will be diversified along the yield curve to avoid a concentration of maturities in one or more months.

- 3) Additional liquidity will be provided through attractive cash equivalent investment options. The City will diversify the investment in money market funds. The combined investment in money market funds should be a minimum of three percent (3%) of the overall Portfolio.

TO OPTIMIZE EARNINGS

- 1) Within the constraints of preservation, safety, and liquidity, it is the City's goal to optimize earnings.
- 2) City funds will be deposited daily to optimize funds available for investment.
- 3) Idle cash will be invested until needed to pay obligations.
- 4) The Portfolio will be structured to provide excess funds for reinvestment so that in periods of rising interest rates, funds are available for reinvestment. In periods of falling rates maturities have been laddered to lock in higher returns.
- 5) The City may employ securities lending to enhance earnings:
 - a. The City will only lend securities to primary government securities dealers, as defined by the Federal Reserve.
 - b. The City will only accept cash, government securities and irrevocable Letters of Credit as collateral greater than or equal to the value of the borrowed securities plus accrued interest. Borrowed securities must be marked to market daily. Increases in the market value of the borrowed securities will necessitate the pledging of additional collateral greater than or equal to the value of the borrowed securities. If the market value of the securities were to decrease, collateral would be released upon request of the securities dealers by the City not greater than the value of the borrowed securities.
 - c. The term of the contract is for one year, but can be renewed annually for an additional one-year term by mutual consent of the City and acceptable counter party. The maximum term for securities on loan may not exceed 90 days, or the expiration date of the contract.
 - d. The monies received by the City as collateral for borrowed securities shall be invested for a term not later than the expiration date of the Securities Lending Agreement.
 - e. The monies received by the City as collateral for securities borrowed can only be invested in money market mutual funds, repurchase agreements, and obligations of U. S. Government, or its agencies and instrumentalities.
 - f. A loan made under the securities lending agreement must allow termination at any time by either party.
 - g. The collateral for the loan must be pledged to the City, held in an account in the name of the City and deposited at the time of the investment with a third party approved by the City.

PORTFOLIO COMPOSITION

At all times at least 80% of the Portfolio must be in investments with maturities of two years or less. No more than 20% of the Portfolio can be held in maturities ranging from two to five years. The maximum dollar weighted average maturity of the Portfolio cannot exceed one year.

DESIGNATED INVESTMENT OFFICER

The Deputy or Assistant City Manager of-over fFinancial sServices, Finance Director, and the City Auditor are the designated Investment Officers. After the investment transaction is completed, an authorization of investment form will be executed for all City investments. The Deputy or Assistant City Manager of-over fFinancial sServices or the Finance Director must sign the form approving investments. Also, the City Manager or the Deputy City Manager must co-sign the form acknowledging the investments.

INVESTMENT COMMITTEE

The Investment Officers of the City will be members of the Investment Committee. The role of the committee will be to review and monitor quarterly reports, make recommendations on changes in the Investment Policy, approve training sources, and approve brokers/dealers.

PERCENTAGE TESTS

This Policy contains several percentage tests. Because of daily changes in cash, the Portfolio can be in compliance one day and not in compliance the next day. The Portfolio limits should be adhered to as investments are purchased; however, investments would not have to be sold to comply with Portfolio limits.

MARKET PRICE VALUATION

Monthly reports will include market price valuations of the Portfolio from a third-party pricing agency or through a source independent of the transaction.

PERFORMANCE STANDARD

The performance standard of the Portfolio will be calculated based on the weighted average yield to maturity.

MONITORING

Not less than quarterly, the Investment Officers will monitor the credit rating for each held investment that has a Public Fund Investment Act required minimum rating. Any investment that requires a minimum rating does not qualify during the period the investment does not have the minimum rating. Prudent measures will be taken to liquidate an investment that is downgraded to less than the required minimum rating.

Except as stated above, the City is not required to liquidate investments that were authorized investments at the time of purchase.

SETTLEMENT OF SECURITIES

All settlements of security transactions will be by "delivery versus payment."

INTERFUND TRANSFERS

From time to time some City funds (for example: General Fund, Airport Fund, and Water and Sewer Fund) will become over/under invested while the overall Portfolio is compliant with the City's Investment

Policy. Investment transfers can be made to correct funds being over/under invested; however, any transfer would have to be suitable for the fund. Investment transfers will be made between funds at book value plus accrued interest. However, transfers involving tax-exempt bond proceeds shall comply with applicable IRS regulations.

COLLATERAL

- 1) All bank deposits not insured by federal depository insurance are collateralized by securities held by an independent third party under a joint custody arrangement giving the City unconditional rights and claims to the collateral. In lieu of the above collateral requirement the depository may provide a surety bond or letter of credit issued by an agency or instrumentality in compliance with the Public Funds Investment Act.
- 2) The City will accept as collateral any securities eligible under the Public Funds Collateral Act reserving the right to accept or reject any individual securities.
- 3) The City will compare deposit collateral to bank deposits daily.
- 4) Authorized depositories will be required to sign a depository agreement with the City. The collateralized deposit portion of the agreement shall define the City's rights to the collateral in case of default, bankruptcy or closing and shall establish a perfected security interest in compliance with Federal and State regulations, including:
 1. The agreement must be in writing;
 2. The agreement has to be executed by the depository and the City contemporaneously with the acquisition of the asset;
 3. The agreement must be approved by the Board of Directors or designated committee of the depository and a copy of the meeting minutes must be delivered to the City; and
 4. The agreement must be part of the depository's "Official Record" continuously since its execution.

SAFEKEEPING

Securities owned by the City should be held in a manner that the safekeeping method will be categorized as "Least Risk" for Governmental Accounting Standards Board (GASB) purposes:

- 1) All securities will be held by the City's safekeeping agent in an account in the City's name.
- 2) All non-physical securities will be safekept at the Federal Reserve or at the City's safekeeping agent.
- 3) Any physical securities will be registered to the City and safekept at the City's safekeeping agent or held in a safe deposit box with limited access.

COMPETITIVE BIDDING

The City will practice competitive bidding orally, by telephone, electronically, or in any combination of these methods when purchasing an investment to help strengthen the investment process. All investments, other than the placement of funds in money markets mutual funds, which are deemed to be made at prevailing market rates, will be competitively bid and placed with providers offering the best value to the City. The City reserves the right to reject the most financially favorable bid if it is potentially disruptive to its investment strategy.

STANDARD OF CARE

The standard of care used by the City shall be the "prudent person rule" and shall be applied in the context of managing the overall Portfolio within the applicable legal constraints. The Public Funds Investment Act states:

"Investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probably income to be derived."

STANDARDS OF ETHICS

All Investment Officers shall file with the Texas Ethics Commission and the City Council a statement disclosing any personal business relationship with an entity seeking to sell investments to the City or any relationship within the second degree by affinity or consanguinity to an individual seeking to sell investments to the City.

REPORTING

Investment performance will be monitored and evaluated by the Investment Officers. The Investment Officers will provide a quarterly comprehensive report signed by all Investment Officers to the City Council. This investment report shall be in compliance with the Public Funds Investment Act.

AUDITS

The City, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to the City's Investment Policy and strategies. Additionally, the auditors will review the Investment Officers' quarterly reports and provide the results of that review to the City Council as part of the annual audit.

REVIEW AND AMENDMENT

The City Council shall review and adopt this Policy at least annually. Amendments must be approved by the Investment Committee and adopted by the City Council.

TRAINING

In order to have qualified and capable Investment Officers, officers will attend investment training and receive not less than 10 hours of instruction relating to investment responsibilities and that is in compliance with the Public Funds Investment Act within 12 months of taking office or assuming investment duties. After the initial training, Investment Officers are required to take eight hours of training every two years aligned with the City's fiscal year. The Investment Committee will approve all investment training sources.

PRUDENT INVESTMENT MANAGEMENT

The designated Investment Officers shall perform their duties in accordance with the adopted Investment Policy and internal procedures. Investment Officers acting in good faith and in accordance with these policies and procedures shall be relieved of personal liability.

BROKER/DEALERS

Investment Broker/Dealers shall adhere to the spirit, philosophy and specific term of the Policy and shall avoid recommending or suggesting transactions outside the "Standard of Care."

The Investment Committee will perform selection of Broker/Dealers at least annually. The Investment Committee will establish criteria to evaluate Broker/Dealers, including:

- a) Adherence to the City's policies and strategies.
- b) Transaction pricing.
- c) Responsiveness to request for services, information and open communication.
- d) Understanding of the inherent fiduciary responsibility of investing public funds.
- e) Similarity in philosophy and strategy with the City's investment objectives.

Ameqy Bank

The approved Broker/Dealers are authorized to engage in investment transactions with the City and can be revised periodically by the Investment Committee. Therefore, the Investment Committee can add additional Broker/Dealers during the year.

INVESTMENT POLICY CERTIFICATION

The individuals authorized to perform wire transactions include the Deputy or Assistant City Manager of over Financial Services, the Finance Director, the City Auditor and the Assistant City Auditor. The City Secretary and the Assistant City Secretary are authorized to make secondary approvals of wire transfers. Wires may be done as repetitive or non-repetitive transactions. Repetitive wires can be set up at a City depository bank with approval of two of the authorized individuals. Thereafter, repetitive wires may be completed with approval of one of the authorized individuals. Non-repetitive wires will require approval from two of the authorized individuals.

STATUTORY VERIFICATIONS

NOT BOYCOTTING ISRAEL

Pursuant to the Texas Government Code, Chapter 2270, Title 10, Subtitle F, a business organization transacting investment business for the City shall verify that the business (1) does not boycott Israel currently; and (2) will not boycott Israel during the contract term. "Boycott Israel" means that the business refuses to deal with, terminates business activities with, or otherwise takes any action intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes.

NOT IDENTIFIED AS COMPANY DOING BUSINESS WITH FOREIGN TERRORIST ORGANIZATION

In accordance with Texas Government Code, Chapter 2252, Subchapter F, those companies responding to the City's advertisement or solicitation for bids, proposals, offers, or qualifications for which a contract or purchase is thereafter made are subject to being identified on a Texas Comptroller list of companies known to have contracts with or provide supplies or services to a foreign terrorist organization. The City shall not enter into a governmental contract with a company that is identified on this list.

INVESTMENT STRATEGY

OPERATING FUND

The operating funds include the General Fund and other Special Revenue Funds of the City. The primary objective in investing available funds is the preservation and safety of principal. All of the allowable investments mentioned in the Investment Policy would be suitable for the operating funds. The investments should be structured so that investments mature to meet cash needs and have excess funds for additional liquidity. In the investment of funds decision, the security with the best return within a three to six month range will be selected with the intention of investing in the other maturities at a later date. This strategy allows the City to take full advantage of the yield curve and all investments securities allowed in the Investment Policy. Short-term securities such as discount notes can be used for shorter maturities, while treasury notes and other agency securities can be used for longer-term maturities. At least some of the purchases will be in U.S. Treasuries or Agency securities, which are both liquid and marketable. Investments in Agency securities should be diversified among different Government Agencies. Investments will be laddered along the yield curve to optimize earnings.

DEBT SERVICE AND DEBT SERVICE RESERVE FUNDS

All Debt Service Reserve funds will be kept in money market mutual funds/accounts or certificates of deposits in the unlikely event the funds would be needed for a shortfall in making debt service payments. Debt Service funds will be accumulated in money market funds/accounts until needed for scheduled debt service payments. The primary objective in investing available funds is the preservation and safety of principal. Yield will be dictated by short-term rates.

PROPRIETARY FUNDS

Proprietary funds include both Enterprise Funds and Internal Service Funds. These funds provide for the operations, capital replacement, and future claims of each functional area. Specifically, proprietary funds include Water and Sewer Fund, Airport Fund, Municipal Garage, Data Processing, Risk Management, and Employee Insurance. All of the allowable investment securities would be suitable for the proprietary funds. The primary objective in investing available funds is the preservation and safety of principal. The investments should be structured so that maturities are scheduled to meet cash needs and have excess funds for additional liquidity. In the investment of funds decision, the security with the best return within a three to six month range will be selected with the intention of investing in the other maturities at a later date. This strategy allows the City to take full advantage of the yield curve and all investments securities allowed in the Investment Policy. Short-term securities such as discount notes can be used for shorter maturities, while treasury notes and other agency securities can be used for longer-term maturities. Most of the purchases will be in U.S. Treasuries or Agency securities, which are both liquid and marketable. Investments in Agency securities should be diversified among different Government Agencies. Investments will be laddered along the yield curve to optimize earnings.

CAPITAL PROJECT FUNDS

Capital project funds are used to account for the construction of various City improvements including General Construction, Street Improvement, Golf Improvement, and other capital improvement funds. All allowable City investments would be suitable for the capital projects funds. The cash should be invested to correspond to the estimated aggregate cash draws on the various projects. At least some of the purchases will be in U.S. Treasuries and Agency securities, which provide both liquidity and marketability. Investments in Agency securities should be diversified among the various Government Agencies.

AMARILLO ECONOMIC DEVELOPMENT CORPORATION

The primary objective in investing Amarillo Economic Development Corporation (AEDC) funds is the preservation and safety of principal; however, AEDC has a great need for liquidity. Suitable investments should be no more than 190 days to maturity. Furthermore, AEDC should have substantial funds held in money market funds/accounts for additional liquidity. Because AEDC funds are very short-term maturities, Treasury Bills, Agency Discount Notes and deposits as described under Section 1 a) of the TO PRESERVE CAPITAL section will be heavily used. Diversification of investments among the various Government Agencies will be very important. Yield will be dictated by short-term rates.

OTHER ENTITY FUNDS

The City also invests funds for other entities. As with City funds, the primary objective in investing available funds is the preservation and safety of principal. Because of the uncertainty of when funds will be needed, liquidity is also very important. When the City invests funds for other entities, the funds will be invested in a similar manner as AEDC funds above.

TRUST FUNDS

Trust funds will be invested in accordance with provisions of the applicable trust agreement. If there are not specific investment requirements, trust funds will be invested in a similar manner as operating funds. In the investment of funds decision, the security with the best return within a three to six month range will be selected with the intention of investing in the other maturities at a later date. This strategy allows the City to take full advantage of the yield curve and all investments securities allowed in the Investment Policy. Short-term securities such as discount notes can be used for shorter maturities, while treasury notes and other agency securities can be used for longer-term maturities. The primary objective in investing available funds is the preservation and safety of principal.

BOND PROCEEDS

The investment of bond proceeds (excluding reserve and debt service funds) shall generally be limited to the anticipated cash flow requirement or the "temporary period," as defined by Federal tax law. During the temporary period bond proceeds may be invested at an unrestricted yield. After the expiration of the temporary period, bond proceeds subject to yield restriction shall be invested considering the anticipated cash flow requirements of the funds and market conditions to achieve compliance with the applicable regulations. Bond proceeds may be invested in a single flexible repurchase agreement if the Investment Officers determine that such an investment has advantage to comply with Federal arbitrage restrictions or to facilitate arbitrage record keeping and calculation.

A flexible repurchase agreement provides that disbursements are allowed in the amount necessary to satisfy reasonable expenditure requests and the defined termination date of the investment does not exceed the estimated expenditure date of the bond proceeds.
