@ 7 PM

Amarillo Refugee

— **2021** —

State of the Union

*Dr. Ryan Pennington,
Refugee Language
Project*

You are invited to attend this special Zoom webinar!

Our first-ever Amarillo Refugee State of the Union address is your chance to learn all about Amarillo's refugees. We will present what we've learned from our years of research, and then share our recommendations for the city & local partners. When we met with refugee communities last year, we discussed their pasts and compared them to their present realities. Then we dreamed together about what they need for a better future. Log in on January 12 to dream with us about how we can make that future a reality. Everyone is welcome, including community partners, volunteers, and friends near and far. The presentation will last an hour, followed by some time for questions.
