Before Starting the CoC Application

You must submit all three of the following parts in order for us to consider your Consolidated Application complete:

 1. the CoC Application,
 2. the CoC Priority Listing, and
 3. all the CoC's project applications that were either approved and ranked, or rejected.

 As the Collaborative Applicant, you are responsible for reviewing the following:

 1. The FY 2022 CoC Program Competition Notice of Funding Opportunity (NOFO) for specific application and program requirements.
 2. The FY 2022 CoC Application Detailed Instructions which provide additional information and guidance for completing the application.
 3. All information provided to ensure it is correct and current.
 4. Responses provided by project applicants in their Project Applications.
 5. The application to ensure all documentation, including attachment are provided.

 Your CoC Must Approve the Consolidated Application before You Submit It
 - 24 CFR 578.9 requires you to compile and submit the CoC Consolidated Application for the FY 2022 CoC Program Competition on behalf of your CoC.
 - 24 CFR 578.9(b) requires you to obtain approval from your CoC before you submit the Consolidated Application into e-snaps.
 Answering Multi-Part Narrative Questions
 Many questions require you to address multiple elements in a single text box. Number your responses to correspond with multi-element questions using the same numbers in the question. This will help you organize your responses to ensure they are complete and help us to review and score your responses.

 Attachments
 Questions requiring attachments to receive points state, "You Must Upload an Attachment to the 4B. Attachments Screen." Only upload documents responsive to the questions posed–including other material slows down the review process, which ultimately slows down the funding process. Include a cover page with the attachment name.
 - Attachments must match the questions they are associated with–if we do not award points for evidence you upload and associate with the wrong question, this is not a valid reason for you to appeal HUD's funding determination.
 - We must be able to read the date and time on attachments requiring system-generated dates and times, (e.g., a screenshot displaying the time and date of the public posting using your desktop calendar; screenshot of a webpage that indicates date and time).

We have worked diligently with all providers to review their discharge policies to ensure they are not discharging people back to homelessness. The COA of Amarillo housing authority has stepped in to support people living in Shelter Plus care units who no longer need the services but still need a rental supplement to supply them with a HUD voucher previously these people were being discharged which for many of them meant returning to homelessness. We also have held landlord fairs and asked landlords to work with us by calling a case manager prior to starting the eviction process so that we can intervene. Now both PHA's in the area are prioritizing homeless individuals and families. We have applied for the other grants both local and federal to provide more community case mangers so that people have the support they need to retain housing.

1D-3.	Street Outreach–Scope.	
	NOFO Section VII.B.1.j.	

	Describe in the field below:	
1.	your CoC's street outreach efforts, including the methods it uses to ensure all persons experiencing unsheltered homelessness are identified and engaged;

3.	how often your CoC conducts street outreach; and	
4.	how your CoC tailored its street outreach to persons experiencing homelessness who are least likely to request assistance.	

(limit 2,500 characters)

Currently the CoC has a few different avenues for street outreach. Our mental health authority has a case manager through their path grant that provides street outreach. The Amarillo Police Department has both the Crisis intervention team that community calls when they see a homeless person in need, and they have also added an additional police officer who is only job is street outreach to the homeless population. All these units are going to know encampments and different places in the community we know homeless people are but are not accessing services. All of these efforts happen on a daily basis, and they do cover 100 percent of the CoC 's geographic area. We know that people living in the camps not accessing shelters are some of the homeless that are not accessing mainstream services and that is where the efforts are targeted we also understand that it is not enough which is why the City of Amarillo applied for was awarded a street outreach grant from the ESG NOFA. We have also greatly enhanced our Point in Time Count Efforts. We now are doing a summer count along with a winter
count. We also have gone from 10 volunteers to 100 during our last point in time count- with the goal of finding those that hardest to reach so we can start connecting with them.

(limit 2,500 characters)

The CoC has assisted in the process to examine and implement a city-wide solution to the growing unsheltered homeless in our community. Through committee meetings and surveys, the CoC has identified the creation of a non-congregate shelter in addition to the provision of case management services as the top priority. The CoC has endorsed the plan put in place to create a tiny home village to provide temporary shelter, restrooms, showers, laundry facilities, food, water, and case management to those experiencing homelessness. We are working through the process of increasing funding and collaboration among all of the CoC agencies to work together in this project.

The hospital social workers called the CoC lead and HMIS lead during the pandemic to make sure if there was a homeless person that tested positive, or was showing signs and needed to be place in quarantine we housed them in a hotel with ESG funds to stop the spread. We developed an MOU between local health agencies and our CoC to provide temporary stays in local hotels when a client tested positive for COVID but resided in a congregate shelter or were without housing. The health agency ensured client access to necessary health services while quarantining while the CoC provided food, water, meal delivery, and daily well checks. The local health agencies provided PPE for hotel staff and each client, a ride for the client to the hotel, and access to medical services as needed during the client stay.
The Public Health Department worked with local agencies to ensure they had access to PPE and education related to necessary distancing and hand washing guidelines

Racial Disparity Assessment is not a discrete event in time and cannot be attached to a particular date. The Coc is working on additional racial disparity work conducted as part of CoC Planning.
1) The CoC utilized a variety of tools including the HUD Racial Equity Assessment tool, along with analysis of PIT, HIC, and especially broad HMIS data. Analysis focused on racial demographics and how these interacted with age, zip code, and a variety of other factors to predict housing outcomes, lengths of time homeless, and others.2) Like many communities, our analysis found that Black/African American
populations are under represented in our homeless system and are sometimes harder to house depending on interacting variables (such as age, disability, etc).We also identified key disparities in our CoC leadership / membership and how representative the board is compared to the populations being served.

The Amarillo CoC regularly outreaches to individuals who have experienced homelessness to take on leadership roles within the CoC. The CoC uses a targeted approach to find individuals that meet this criteria. Current CoC members and leaders have personal relationships with these individuals thus providing an avenue for personally inviting them to take on these important roles. We have found this method to be the most effective as we are seeking individuals who are stably housed, not actively in addiction, and able to commit to this important role. We have several that meet this criteria and have provided great insight over the years. We are always looking and supporting new individuals to fill this same role for the future of the CoC.

(limit 2,500 characters)

All of the projects that were analyzed were previously funded last year. The CoC uses data from HMIS to review the projects usage and effectiveness of their program procedures. The CoC uses data from HMIS to analyze the length of time it takes to house people in permanent housing. The CoC examines the agencies usage of the Vulnerability Assessment Tool (VAT) in their examination of the specific severity of needs and vulnerabilities. HMIS is utilized to determine the agencies effectiveness in maintaining permanent housing.

1E-3.	Promoting Racial Equity in the Local Competition Review and Ranking Process.	
	NOFO Section VII.B.2.e.	

	Describe in the field below:
1.	how your CoC obtained input and included persons of different races, particularly those over-represented in the local homelessness population;
2.	how the input from persons of different races, particularly those over-represented in the local homelessness population, affected how your CoC determined the rating factors used to review project applications;
3.	how your CoC included persons of different races, particularly those over-represented in the local homelessness population, in the review, selection, and ranking process; and

4.	how your CoC rated and ranked projects based on the degree to which their project has identified any barriers to participation (e.g., lack of outreach) faced by persons of different races and ethnicities, particularly those over-represented in the local homelessness population, and has taken or will take steps to eliminate the identified barriers.	

(limit 2,500 characters)

The Amarillo CoC recognizes and takes into consideration that there are many different races of individuals that are experiencing homelessness. The races of those most overrepresented in the Amarillo homelessness population are significantly represented in their input. These individuals are represented with membership on the board and in the general membership. The scoring and ranking committee has representation from the previously homeless category and they play a vital role in the discussions and review process. The rating and ranking of projects examines many different factors and the inclusion of all races and ethnicities is important. Continued efforts to quantify the way the CoC uses this data will continue to be of paramount importance in the future.

1E-4.	Reallocation–Reviewing Performance of Existing Projects.	
	NOFO Section VII.B.2.f.	

	Describe in the field below:
1.	your CoC's reallocation process, including how your CoC determined which projects are candidates for reallocation because they are low performing or less needed;
2.	whether your CoC identified any projects through this process during your local competition this year;
3.	whether your CoC reallocated any low performing or less needed projects during its local competition this year; and
4.	why your CoC did not reallocate low performing or less needed projects during its local competition this year, if applicable.

(limit 2,500 characters)

In the Amarillo CoC policy and procedures, attention is given to the reallocation process. The CoC is mindful of gaps and low-performance and monitors these through APR data. The CoC also monitors discharge patterns to detect potential gaps in services. These gaps may be filled by public education, but reallocation is a powerful tool that the CoC may utilize to address needs within the community. The CoC adopted a policy in 2019 on reallocations that details considerations that the Executive Committee will be mindful of when considering reallocations, including HUD priorities and requirements, CoC priorities and requirements, and established monitoring and scoring results and prioritization practices of projects. The Executive Committee leads reallocation efforts. The CoC follows the Reallocation Policy and Written Standards when considering whether to reallocate projects or not. For this competition, four projects eligible for renewal pursued funding.
(2) The CoC did not identify projects for reallocation in FY22.
(3) The CoC did not reallocate funds.
(4) The CoC maintains a Monitoring Subcommittee that conducts annual review of project performance. Scores from these monitoring visits are used in conjunction with APR data to identify project performance and capacity to meet need. No projects were identified as low performing during this competition year.

- Notice of Funding Opportunity (NOFO) for Fiscal Year (FY) 2022 Continuum of Care Competition and Noncompetitive Award of Youth Homeless Demonstration Program Renewal and Replacement Grants;
  - 24 CFR part 578;
   - FY 2022 CoC Application Navigational Guide;

(limit 2,500 characters)

The Amarillo CoC collaborates with agencies that specifically serve homeless youth to include emergency shelters and outreach. The collaboration is specifically with the agencies and the adult providers within these organizations. The CoC has not explored the procedures and concerns surrounding the inclusion of homeless youth in the execution of the count. This is an area we will explore and possibly implement in the future with the caveat that we want to respect and protect these youth. The homeless youth stakeholders are engaged with the scouting and actual participation of the count. While there are limited providers in our CoC focusing on youth, the CoC enjoys strong working relationships with them. In Particular the Catholic Charities Youth shelter. There are no federally funded youth homeless

projects in our CoC. CCTXP is a key partner in PIT planning and actively contributes information as to their population and volunteers in the unsheltered count as well.

 We did not have any homeless youth to involve in our count.

We solicited feedback from a number of community partners including youth serving organizations to ensure we searched areas most likely to have youth present.

The information obtained through this method is used to create data points to identify the risk factors and gaps in services to assist with ongoing preventative assistance programs. The Amarillo COC and various participating agencies offer preventative rental assistance programs to assist families and individuals that meet the criteria for at-risk of becoming homeless. The Amarillo COC is responsible for the oversight and reviews of all sub-recipients' policies and procedures to ensure that at a minimum all HUD standards are being followed when assisting eligible individuals and families.

4B. Attachments Screen For All Application Questions

We have provided the following guidance to help you successfully upload attachments and get maximum points:

	1.	You must include a Document Description for each attachment you upload; if you do not, the Submission Summary screen will display a red X indicating the submission is incomplete.
	2.	You must upload an attachment for each document listed where 'Required?' is 'Yes'.
	3.	We prefer that you use PDF files, though other file types are supported–please only use zip files if necessary. Converting electronic files to PDF, rather than printing documents and scanning them, often produces higher quality images. Many systems allow you to create PDF files as a Print option. If you are unfamiliar with this process, you should consult your IT Support or search for information on Google or YouTube.
	4.	Attachments must match the questions they are associated with.
	5.	Only upload documents responsive to the questions posed–including other material slows down the review process, which ultimately slows down the funding process.
	6.	If you cannot read the attachment, it is likely we cannot read it either.
		. We must be able to read the date and time on attachments requiring system-generated dates and times, (e.g., a screenshot displaying the time and date of the public posting using your desktop calendar; screenshot of a webpage that indicates date and time).
		. We must be able to read everything you want us to consider in any attachment.
	7.	After you upload each attachment, use the Download feature to access and check the attachment to ensure it matches the required Document Type and to ensure it contains all pages you intend to include.
