**NOTIFICATION OF AIRPORT CONSTRUCTION ACTIVITY**

**RE: AMA TWY P4 INFIELD DRAINAGE IMPROVEMENT**

**Impact Dates: 2/27/24 – 3/2/24**

**Project Summary:**

This single phase project is conducted to mitigate water accumulation within the infield area immediately adjacent to and southwest of Taxiway P4. The scope of the project includes drainage structure installation, soil fill and topographical grading. A portion of the grading and fill area exists within the taxiway P4 safety area (TSA) and object free area (TOFA), therefore, taxiway P4 will be closed for the duration of the project. Construction equipment and heavy haul vehicles will routinely cross taxiway P at taxiway P4. Flaggers will be present to deconflict vehicles and equipment crossing the active taxiway with taxiing aircraft.

**Phase 1**

Anticipated Start Date: February 27, 2024

Operational Impact Duration: 5 days

Construction tasks for Phase 1:

- Temporarily close Taxiway P4 for the duration of the project
- Install concrete drainage structures and piping
- Install, grade and compact fill soil
- Complete final grading

Runway Operational Status during project

Runway 4-22 OPEN

Runway 13-31 OPEN

Taxiway Operational Limitations during project

Taxiway P4 CLOSED
