

Amarillo CoC General Meeting
May 11, 2023
WTAMU Downtown Amarillo
10:00 AM

Vice-President Kraig Stockstill brought the meeting to order at 10:02 am on May 11, 2023. He welcomed everyone in attendance. Everyone introduced themselves to the membership.

Kraig called for review of March 2023 minutes and asked for any changes or amendments. No one opposed the minutes, so they passed unanimously.

Lead Agency Report

Jason reported on the groundbreaking of Transformation Park and recognized Sgt. Rudy Montano for his Excellence of Service Award from Randall County for his superior work in our community.

Guest Speakers

Kraig introduced Robin from Panhandle Community Services, a Health Navigator with PCS. Robin reported they can help people who do not have health insurance, especially since continuous enrollment ended 3-31-23. She handed out flyers to inform members of the help they can provide their clients. All the help is free to clients. They can check the client's status, help with filling out the information and sending the information to the correct place. They do not have to be a PCS client to get services. She also announced that Amarillo College is working to provide free dental service.

Amy from PCS talked about assistance they may be able to provide for those who are behind on home loans, utility, or other expenses. Their program has great flexibility so they want to see the members' clients to see if they can help them out of the hole, and not lose their home.

Community Announcements

- Reach out to Dr. Shana James to highlight your program to the CoC membership.
