Signature of Applicant	Date
Printed Name	

The Master Plan Program is an excellent opportunity for contractors who build the same model of homes a number of times. This program reduces the plan review turnaround time to 3-5 business days once the Master Plan has been approved. To participate in this program, your plan must meet all of the following conditions:

- ✓ Single or two-family dwelling or townhouse
- ✓ Located on an approved platted lot
- ✓ Same floor plan(s) or flip(s) with same elevations will be used multiple times

See Master Plan Project Guidelines for proper submittal information.

Disclaimer: All plans must be site specific. ANY changes or revisions will cause the project to halt and a complete new set of plans must be submitted and reviewed before the project can continue. Permits cannot be issued until all plat or required floodplain information has been approved. Please allow up to 2-3 weeks for the initial master plan review to be completed. Plans will be subject to re-review following any code update or adoption. All work is subject to field inspection. All plan sets with fireplace options will be reviewed as if a fireplace is to be installed unless otherwise indicated on the site specific application.
