Vicinity: South Western Street from IH-27 (Canyon Drive) to West Sundown Lane

Consideration and public hearing of an ordinance providing for specified changes in the adopted Comprehensive Plan by amending the Future Land Use and Character Map, specifically for eight parcels located north of West Farmers Ave and east of South Western St, and falling within a study area of approximately 800' along South Western St from IH-27 (Canyon Dr) to the southernmost city limit (West Sundown Ln); providing a severability clause; and providing an effective date.

Agenda Item Summary

Local Government Code Title 7, Subtitle A, Chapter 213 permits cities to adopt a comprehensive plan for the long-range development of a municipality, which was done by adoption of the Amarillo Comprehensive Plan in October of 2010. This same chapter allows cities to amend a comprehensive plan by ordinance following consideration by their planning commission (who considered this proposal on January 9th) and following a public hearing.

Local Government Code Section 211.004 requires cities to zone in accordance with the Comprehensive Plan; therefore, this document is fundamentally important in shaping the growth of Amarillo.

At the P&Z meeting on November 28th, staff presented a proposed process for examining study areas in which the Future Land Use & Character (FLUC) Map component of the Amarillo Comprehensive Plan (adopted 2010) is potentially out of date based on recent changed conditions of the area, and as the city grows outward. This item was approved unanimously by the Commission.

At the same meeting, staff presented a proposed area to examine the Future Land Use & Character Map (FLUC) in the area referenced in the caption above. The Commission unanimously voted to give direction to the Planning Department to start examining this area.

Staff's examination of the area included a look at the timing of when the land encompassed within 800' of S Western Street (and any parcels for which portions extended slightly outside) was annexed. Also, historic zoning patterns, land uses, and an inventory of the existing land uses in the area was completed. Staff also looked at planned and potential projects within this subject area. Finally, the department created a proposed map amendment, identifying some changes deemed justified by this assessment.

Changes to the Comprehensive Plan do not require notification; however, in the interest of transparency, staff notified all owners of record in the affected area, and a newspaper ad was posted, alerting the owners to a general information meeting to be held on Thursday, January 5th, at which staff members were available to answer questions and discuss the proposal that was put together. Prior to

Amarillo City Council

Agenda Transmittal Memo

the meeting, staff received contacts from 17 citizens within the notification area. After discussion with staff, and asking some questions, none of the 17 citizens indicated opposition to the proposed changes.

31 attendees came to the meeting, and approximately 14 additional phone calls were received. While most indicated support or indicated no preference, there were a few contacts received who were in opposition to the proposed changes in four different areas.

After further discussion at the Planning & Zoning Commission meetings, the Commission voted to table 3 of the 4 proposed changes for additional discussion and one more informational meeting. The Commission also voted to approve proposed changes in Area 2 – the eight parcels located north of West Farmers Ave and east of South Western St that, in the current plan, are shown to be developed as “Estate Residential”. “Estate Residential” is a land use classification that calls for 1 acre minimum housing sites in rural areas. Staff proposes changing the parcels here to call for “Suburban Commercial”, which would be consistent with offices, various retail and services of a limited size and intensity in order to be compatible with nearby residential areas. Furthermore, it would provide a less intensive commercial node, following along with the Comprehensive Plan’s guidance and staying consistent with the Neighborhood Unit Concept (NUC). While there was extensive discussion about the overall area of study at the P&Z level, there generally appeared to be widespread support for these changes to “Suburban Commercial”.

The background packet includes four maps for review: 1) the existing land use inventory of the study area, 2) the current Future Land Use and Character Map (FLUC) for this study area, 3) the proposed Future Land Use and Character Map for this study area, and 4) a map showing only the area of change, for simplicity.

Requested Action

Approval of the proposed changes for these eight parcels to “Suburban Commercial” in the Comprehensive Plan’s Future Land Use and Character (FLUC) Map.

Community Engagement Summary

Notices were sent to all property owners of record within the entirety of the study area (far larger notification area than a typical rezoning case). In addition, advertisement was published in the local newspaper and a general informational meeting held on January 5th.

The item was recommended for approval by 7:0 vote of the Planning and Zoning Commission at its January 10, 2017 public meeting.

City Manager Recommendation

Planning Staff have reviewed the associated ordinance and exhibit and, along with the Planning & Zoning Commission, recommend the City Council approve the item as submitted.

Consideration and possible action on an ordinance rezoning of a 6.53 acre portion of land out of Lot 8, South Side Acres Unit No. 1, in Section 230, Block 2, AB&M Survey, Randall County, Texas, plus one-half of all bounding streets, alleys, and public ways to change from Residential District 1 (R-1) to General Retail District (GR).

Agenda Item Summary

The applicant is requesting the zoning of a 6.53 acre tract of land, previously zoned Residential District 1 (R-1), to change to General Retail District (GR), in order to develop the land with commercial retail use.

This tract of land was zoned Residential District 1 (R-1) after its annexation on 3/8/1960.

When performing a site visit staff noticed more intensive uses on the east side of Western Street north and south of the subject property; for example, Planned Development Districts that allow for light commercial use but exclude some alcohol sale related uses. Directly north of this property across Catalpa Lane, a vacant tract of land is currently zoned General Retail District. Along the stretch of Western Street from I-27 to Farmers Avenue, residential development has been primarily established on the west side of the street, while commercial and retail uses have been primarily established on the east side. This requested zoning would be a logical continuation of this zoning pattern already established in this area, and as the request is situated along a highly-traveled section line arterial, the rezoning would follow the neighborhood unit concept of stepping down in intensity of land use towards the center of the section from the perimeter [Comprehensive Plan, Chapter 2, Pg 2.23].

This zoning request is currently inconsistent with the future land use map, established in 2010; however, the request is consistent with the proposed changes to the map which staff has formulated after completing a study of this corridor. While analyzing the current future land use map and the conditions of the area along a portion of South Western Street from I27 to West Sundown Lane, planning staff has found that the 2010 future land use map is not reflective of the current and changing conditions for this area. Analysis of this area along Western Street has shown an opportunity for further uses associated with the "suburban commercial" character that could be beneficial to the surrounding communities. The requested GR zoning does encompass uses consistent with the "suburban commercial" land use characteristics such as a range of commercial retail and service uses excluding some auto-oriented uses that, by their nature, cannot achieve a suburban character.

With the predominantly southwestern growth of the city and the future expansion of Loop 335, this section of South Western Street has encountered an increase in traffic as a section line arterial street

Amarillo City Council Agenda Transmittal Memo

and will likely see greater growth as The Pinnacle subdivision and other development occurs south of Loop 335. The increase in traffic and residential development help support more retail-oriented development to be positioned at integral locations so as to further benefit each other. This being said, the request is consistent with these changing conditions.

Based on the above analysis, planning staff believes the requested rezoning seems appropriate for conditions of the area.

Rezoning of a 19.12 acre tract of land in Section 62, Block 9, BS&F Survey, Randall County, Texas, plus one-half of all bounding streets, alleys, and public ways to change from Agricultural District to General Retail District.

Agenda Item Summary

This tract of land is currently zoned Agriculture District (A), and dates back to when the eastern portion along Soncy Rd. (Loop 335) was annexed (No. 65) in 11/14/1978 and the western portion was annexed (No. 109) in 12/4/2012.

Staff's analysis of zoning change requests begins with referring to the 2010 Comprehensive Plan's Future Land Use and Character Map in order to identify what it recommends for future land uses. Staff also considers how any zoning change would impact the Comprehensive Plan's recommended Neighborhood Unit Concept (NUC) of development whereby non-residential land uses are encouraged at section-line arterial intersections with a transition to residential uses as development occurs away and inward from the arterial intersections. Staff also considers existing zoning and development patterns in the area.

This rezoning request appears inconsistent upon initial review with the adopted 2010 Comprehensive Future Land Use and Character Map, which calls for future "suburban residential" land use for this area. However, it is important to note that this area immediately abuts (on to sides, the north and east) a swath of property identified for future "general commercial" land uses. In looking at this request, and the larger area around it, such a change would represent only a minor inconsistency, as it would simply increase slightly the existing pattern of "general commercial" established, as far back as 2010. Considering this and pairing it with the fact that there have been sizeable changing conditions in the area since that time, accompanied by an increase in commercial and retail development southward along Loop 335, is important to acknowledge.

As the city continues to grow in a southwest to west direction, future analysis of this general area will need to be pursued, which may show a need for an amendment to the comprehensive land use of this area. Looking at the area in question in the greater context of these facts, it is the opinion of this staff that the inconsistency in this instance is of negligible consequence and minor. This would not be the case in most situations, but appears to a unique circumstance here.

Based on the above analysis, planning staff believes the requested rezoning seems appropriate for conditions of the area.

 David Soto, Planner I

Chairman Parker opened the meeting, established a quorum and conducted the consideration of the following items in the order presented. Jeffrey English gave the recommendations for each item.

ITEM 1: Approval of the minutes of the December 5, 2016 meeting

A motion to approve the minutes of the December 5, 2016 meeting was made by Commissioner Thomason, seconded by Commissioner Jones, and carried 6:0:1 with Commissioner Good abstaining.

ITEM 2: Z-16-41 Rezoning of Lots 1-16 & 16-31, Blocks 23 & 24, Heritage Hills Unit No. 7, in Section 65, Block 9, BS&F Survey, Randall County, Texas, plus one-half of all bounding streets, alleys, and public ways to change from Residential District 2 to Residential District 3. (4.87 Acres) (Vicinity: Heritage Hills Pkwy. & John Thomas St.)
 APPLICANT: Daryl Furman

Mr. English stated the applicant is requesting the zoning change in order to change the setback requirements on 4.87 acres within the Heritage Hills subdivision. Mr. English explained Residential District 3 requires a minimum of 15' front yard setback, a 65% maximum lot coverage and a minimum 5,000 sq ft lot area, and whereas the current zoning, Residential District 2 requires a minimum 25' front yard setback, a 45% maximum lot coverage and a minimum 6,000 sq ft lot area. Mr. English stated staff believes the request is appropriate and recommends approval as submitted.

Chairman Parker asked if anyone wanted to speak in favor of or against said request. No comments were made.

A motion to approve Z-16-41 was made by Commissioner Bedwell, seconded by Commissioner Good, and carried unanimously.

ITEM 3: P-16-113 Town Square Unit No. 6, an addition to the City of Amarillo, being a replat of a portion of Lot 3 and Lot 13, Block 1, Town Square Unit No.1 and an unplatted tract of land in Section 63, Block 9, BS&F Survey, Randall County, Texas. (7.79acres)(Vicinity: Town Square Blvd & Mckenna Sq.)
DEVELOPER(S): Seth Williams
SURVEYOR: Daryl Furman

Chairman Parker advised this item will require no action today.

ITEM 4: Discussion and possible action regarding North Heights Neighborhood Plan.

Ms. Fawver presented the item. (The presentation is part of the minutes.)

Commissioner Thomason asked if there would be special fund raising for the Plan. Ms. Fawver advised the City will review a variety of different funding sources and some funding has already been designated. Commissioner Bedwell asked if the City feels any issues will occur with property owners. Ms. Fawver stated this is just a planning document and adopting the Plan does not create a massive rezoning of the area. In the future, as changes are requested, the changes will need to follow the adopted Plan. Ms. Fawver stated the Comprehensive Plan is not being changed, only rather supplementing the document with key ideas and actions for the area.

Commissioner Jones inquired as to the short-term/long-term phases of the project. Ms. Fawver advised this process is the first coordinated effort for this type of Plan, and phases will be better defined as the process moves forward. Short-term is currently estimated at 3 to 5 years, and mid-term to long-term at 5 to 10 years, but again, timelines could be adjusted going forward. Commissioner Jones asked if this plan will be going on simultaneously as the next neighborhood plan begins in 2017. Ms. Fawver answered yes.

Commissioner Ford asked if the ultimate goal is to stimulate development within the neighborhood. Ms. Fawver advised redevelopment and economic development is one of the three major goals. Commissioner Jones asked if the City is pleased with the participation level. Ms. Fawver advised the kick off meeting had over 100 people involved, and the advisory committee was very involved in driving the process. Commissioner Harman inquired as to the number of zoning requests within the designated area in the last three years. Ms. Fawver asked Mr. Kelley Shaw and his answer was less than ten. Commissioner Ford inquired if discussions had been had regarding the possibility of a TIRZ (Tax Increment Reinvestment Zone). Ms. Fawver advised this was a part of the discussions for economic development within the area.

Chairman Parker asked for public comment. Bettye Briggs, 1909 Currie Ln, asked if the commissioners would not approve any rezoning requests for manufactured homes in the area. Kelley Shaw, Housing Administrator, thanked members in the audience for attending the Neighborhood meetings and stated the attendees are some of the core group that helped drive this plan. Commissioner Jones thanked the audience and city staff for all the work and involvement in putting together this Plan.

Madeleine Frum, 2607 Wolflin, encouraged the commissioners to approve this plan to further stimulate jobs as development comes to the neighborhood.

A motion recommending approving the North Heights Neighborhood Plan moving forward was made by Commissioner Jones, seconded by Commissioner Thomason, and carried unanimously.

ITEM 5: Public Forum: Time is reserved for any citizen to comment on City zoning or planning concerns; however, the Commission can take no action on any issue raised.

No comments were made.

ITEM 6: Planning Director's Report.

Ms. Fawver stated going forward the Commissioners will only review the plats where you will need to take action, as the short-form plats will be handled administratively. Ms. Fawver advised she is compiling a departmental work plan for 2017 outlining where the Planning Department should place our priorities. The Planning Department is also working on a Future Land Use plan amendment along a stretch on Western St., and will be presenting a proposal in early 2017.

ITEM 7: Discuss Items for Future Agendas.

No further comments were made and the meeting was adjourned at 4:25 P.M.

Five-Year Update – Evaluation and Appraisal Report

An evaluation and appraisal report should be prepared every five years. City staff should initiate this report with input from various City departments, the Planning and Zoning Commission, and other boards and commissions. The report process involves evaluating the existing plan and assessing how successful it has been in achieving the community's goals. The purpose of the report is to identify the successes and shortcomings of the plan, look at what has changed over the last five years, and make recommendations on how the plan should be modified in light of those changes.

The report should review baseline conditions and assumptions about trends and growth indicators. It should also evaluate implementation potential and/or obstacles related to any unmet action recommendations. The evaluation report and process should result in an amended Comprehensive Plan, including identification of new or revised information that may lead to updated planning themes and/or action recommendations.

More specifically, the report should identify and evaluate the following:

- (1) Summary of major actions and interim plan amendments undertaken over the last five years.
- (2) Major issues in the community and how these issues have changed over time.
- (3) Changes in the assumptions, trends and base studies data, including the following:
 - The rate at which growth and development is occurring relative to the projections put forward in the plan.
 - Shifts in demographics and other growth trends.
 - City-wide attitudes and whether apparent shifts, if significant, necessitate amendments to the stated priorities or strategies of the plan.
 - Other changes in political, social, economic, technological or environmental conditions that indicate a need for plan amendments.

ADOPTED 10-12-10

(4) Ability of the plan to continue to support progress toward achieving the community's goals. The following should be evaluated and revised as needed:

- Individual statements or sections of the plan must be reviewed and rewritten, as necessary, to ensure that the plan provides sufficient information and direction to achieve the intended outcome.
- Conflicts between planning principles and action items that have been discovered in the implementation and administration of the plan must be pointed out and resolved.
- The action agenda must be reviewed and major accomplishments highlighted. Those not completed by the specified timeframe should be re-evaluated to ensure their continued relevance and/or to revise them appropriately.
- As conditions change, the timeframes for implementing the individual actions of the plan should be re-evaluated where necessary. Some actions may emerge as a higher priority given new or changed circumstances while others may become less important to achieving the goals and development objectives of the community.
- Based upon organizational, programmatic and procedural factors, as well as the status of previously assigned tasks, the implementation task assignments must be reviewed and altered, as needed, to ensure timely accomplishment of the plan's recommended actions.
- Changes in laws, procedures, and missions may impact the ability of the community to achieve its goals. The plan review must assess these changes and their impacts on the success of implementation, leading to any suggested revisions in strategies or priorities.

Ongoing Community Outreach and Engagement

All review and update processes related to the Comprehensive Plan should emphasize and incorporate ongoing public input. The annual and continual plan evaluation and reporting process should also incorporate specific performance measures and quantitative indicators that can be compiled and
